Una linea dinamica ed esauriente, completa anche nei dettagli più minuti e preziosi, frutto di un design pulito ed essenziale che esalta la linearità classica dei metalli e ne valorizza le qualità decorative. Per celebrare nel migliore dei modi gesti, consuetudini, gusti del rituale più antico del mondo.

A dynamic and complete line, where even the tiniest and most precious details are taken care of, the fruit of a clean, basic design that enhances the classic linearity of metal and promotes its decorative properties. For celebrating the gestures, customs and tastes of the world's most ancient ritual in the best way possible.

Eine dynamische und unerschöpfliche Linie, inklusive kleinster und wertvollster Details, ein Ergebnis eines puren und essentiellen Designs, das die klassische Linearität der Metalle hervorhebt und die dekorativen Eigenschaften aufwertet. Zur bestmöglichen Zelebrierung der Gesten, Gewohnheiten und des guten Geschmacks des ältesten Rituals der Welt.

## Finiture

### Finishings

### Endbearbeitung

In aggiunta alle tradizionali finiture lucida, Stone Washed e Ice tutte le collezioni di posate sono realizzabili con il rivestimento in PVD nei classici colori: nero, rame, oro, champagne.

Il PVD, acronimo di Physical Vapour Deposition, è un innovativo processo di rivestimento superficiale.

Le posate sono rivestite da depositi metallici superficiali molto sottili, ottenuti con tecnologie che permettono di raggiungere elevate durezza superficiali. Inoltre la possibilità di ottenere diversi tipi di colorazioni e l'atossicità del prodotto ne completano le caratteristiche fondamentali.

In addition to the traditional shiny, Stone Washed and Ice finishings all the cutlery collections can be finished with PVD coating in the classic colours: black, copper, gold, champagne.

PVD, acronym of Physical Vapor Deposition, is an innovative surface coating process. The cutlery is finished with very thin superficial metal deposits, obtained with technologies that allow to reach high surface hardness. Different colours and the non-toxicity complete the product's basic characteristics.

Zusätzlich zu den traditionellen glänzenden, Stone Washed und Ice varianten können alle Besteckkollektionen mit einer PVD-Beschichtung in den klassischen Farben Schwarz, Kupfer, Gold und Champagner hergestellt werden.

PVD, Abkürzung für Physical Vapor Deposition, ist ein innovativer und Umweltfreundlicher Oberflächenbeschichtungsprozess. Das Besteck ist mit sehr dünnen oberflächlichen Metallabscheidungen versehen, die eine hohe Oberflächenhärte erreichen. Verschiedene Farben und die Ungiftigkeit vervollständigen die grundlegenden Eigenschaften des Produkts. Die glänzende Dekorbeschichtung macht das Besteck interessant, da es andersartig, modern, und stilvoll erscheint

## White Lies

Design Massimo & Martina Castagna

Una lampada da tavolo il cui elemento illuminante riprende i tratti salienti di un portacandela. La versatilità le permette di essere protagonista in diverse location e in particolari contesti, per creare un'allure raffinata e avvolgente, pensata come punto luce o come elemento decorativo da utilizzare con la funzione di centrotavola e come fonte di luce. White Lies ha un'anima tecnologica che la rende adatta per l'indoor ma anche per l'outdoor: è infatti ricaricabile tramite USB o presa di corrente e l'intensità della luce è regolabile su tre livelli.

A table lamp whose illuminating element recalls the main features of a candle holder. Its versatility allows the product to be used in different locations and in particular contexts, to create a refined and enchanting allure, designed as a spotlight or as a decorative element acting as a centerpiece and as a light source. White Lies has a technological soul that makes it suitable for indoors but also for outdoors: it is rechargeable via USB or socket and the light intensity is adjustable on three levels.

Eine Tischlampe, deren Leuchtelement an die markanten Merkmale eines Kerzenhalters erinnert. Diese besondere Lampe ist sehr vielseitig und passt sich, dank ihrer eleganten und raffinierten Formen, problemlos jedem Ort und jeder Umgebung an. Perfekt für den Tisch, als dekoratives Element oder einfach nur als Lichtquelle. White Lies hat eine technologische Seele und ist für den Innenbereich als auch für den Aussenbereich geeignet. Sie ist über USB oder Steckdose wiederaufladbar und die Lichtintensität ist in drei Stufen einstellbar.

## Variazioni sulla Tavola

Design Sirine Graiaa

Nati dal progetto della designer Sirine Graiaa. "Nella cultura medio orientale i pasti vengono intesi come momenti di aggregazione in cui la famiglia e gli amici, o eventuali ospiti, si riuniscono intorno al tavolo al cui centro viene posizionato un unico grande piatto, dal quale ciascun commensale può attingere. Il valore della condivisione è molto radicato ed è in quest'ottica che knIndustrie introduce una nuova linea di centrotavola dalle dimensioni generose, elementi di design che rimangono al centro della tavola per tutta la durata di un pranzo, di un aperitivo o merenda, o di una cena, per servire con praticità ed eleganza il cibo con una proposta di apparecchiatura del tutto nuova, anche per un servizio home made".

I Centrotavola gastronomici, utilizzati principalmente per servire, grazie al loro stile assumono anche una valenza decorativa e possono essere posizionati al centro del tavolo al pari di sculture contemporanee per arredare l'ambiente cucina o la sala da pranzo. Realizzati in differenti materiali quali legno, grès, acciaio e vetro, gli elementi della collezione Variazioni sulla tavola sono ideati al contatto con gli alimenti e grazie alla loro resistenza possono supportare anche pentole o contenitori di cottura ancora caldi, per la massima praticità durante il servizio.

Born from the project of the designer Sirine Graiaa. "In Middle Eastern culture, meals are moments of aggregation in which family and friends, as well as guests, gather around the table: a single large plate is placed at the center and each tablemate draws from it. The value of sharing is deeply rooted and, starting from this idea, knIndustrie introduces a new line of generously sized centerpieces, design elements that remain at the center of the table for the entire duration of a lunch, an aperitif, a snack, or a dinner, to serve food with practicality and elegance with a completely new range of equipment, even for a domestic service". The centerpieces, mainly used for serving, thanks to their style also take on a decorative value and can be placed on the table like contemporary sculptures to furnish the kitchen or dining room. Made of different materials such as wood, stoneware, steel and glass, the elements of the "Variazioni sulla tavola" collection are suitable for contact with food and, thanks to their resistance, they can also support pots or cooking containers that are still hot, for maximum practicality during service.

## The Tradition

L'eterna bellezza e la raffinatezza delle forme classiche esaltano la mise en place e l'argento della collezione impreziosisce con armonia ed equilibrio la presentazione.

The eternal beauty and the sophistication of the classic shapes enhance the mise en place and the collection's silver embellishes with harmony and balances the presentation.

Klassische Formen und raffinierte Ästhetik schmeicheln der Mise en Place, Silber wertet das Bild auf harmonische Art und Weise auf.
